WORK EXPERIENCE

Vaccine Genie

Seattle, WA (Remote)

Analytics & SEO Intern

May 2026 – Present

- Designed GA4 dashboards covering KPIs and the customer journey for C-suite stakeholders and the UX team; delivered a tutorial enabling self-service analytics and reducing manual reporting.
- Analyzed 100+ posts across two Facebook accounts using Python, visualizing content performance and generating insights to inform future content strategy.
- Standardized social media reporting across 5 major platforms by defining key metrics and establishing a C-suite reporting framework, improving reporting consistency and streamlining cross-platform analysis.
- Conducted SEO audits of 6 website pages using Google Search Console, identifying key website issues and providing recommendations to support SEO improvements.

Boston University

Boston, MA

Teaching Assistant

Sep 2025 – Dec 2025

- Led weekly tutorials for 30+ students in Marketing Analytics, demonstrating A/B testing, logistic regression, random forest, and K-means clustering using Python and Tableau for applied business analysis.
- Provided structured feedback on assignments and projects, guiding students in interpreting analytical results and translating quantitative findings into actionable business insights.

Qingdao Beverage Group

Qingdao, China

Operation Specialist (Analytics)

Nov 2020 – Apr 2024

- Utilized Excel Pivot Tables and VLOOKUP to analyze product and campaign performance, evaluating sales trends, ROI, and conversion rates to support promotion planning and advertising budget allocation.
- Collaborated with the marketing team to evaluate and launch new sales channels, including TikTok e-commerce and community group buying, contributing to over 100% year-over-year growth in online revenue.
- Conducted customer segmentation and market analysis using Python and Excel to identify product gaps, supporting the launch of 4 online-exclusive SKUs that generated 25% of total sales within the first year.
- Performed demand forecasting using historical sales data in Excel, improving inventory planning and product availability.

Shanghai Mocan Network Technology

Shanghai, China

E-commerce Operations Specialist

Jun 2017 – Aug 2019

- Evaluated website traffic and conversion funnel performance using Google Analytics, incorporating market trends and competitor benchmarking to identify conversion opportunities and inform product positioning.
- Optimized email marketing targeting and customer journey design through user segmentation and lifecycle analysis, driving 3× YoY email revenue growth and a 12% increase in AOV.
- Managed multi-channel digital marketing campaigns across Meta, YouTube, and influencer partnerships, generating 300K+ conversions and contributing to revenue growth.
- Developed Excel KPI dashboards using Pivot Tables to monitor category-level sales performance and inform advertising and merchandising decisions.
